

The Orchard Green

1. I'm a lucky kid, you know what I did, that crazy hazy, lazy summer long?
Just imagine the scene: an orchard green, that crazy hazy, lazy summer long
The sun is shining in the sky, it's cool just to sit and watch the clouds float by
It's summer time an' the livin' is mean! In the orchard green.
Oh, what lazy fun, in the summer sun, here in the orchard green.

2. Hear the squawk of a jay, as it scoots on its way, here in the orchard green
Hear the buzz of a bee, as it crosses the lea, here in the orchard green
A butterfly may flutter by, see the shimmer of a dragonfly,
It's summer time an' the livin' is mean! In the orchard green.
It's a crazy thing, this song that I sing, here in the orchard green.

3. Da da da da doo za za za za zoo
Oh what lazy fun, in the summer sun, here in the orchard green
Just imagine the scene: an orchard green, that crazy hazy, lazy summer long
A plane up high might catch the eye; a tractor ploughs its furrow in a field nearby
It's summer time an' the livin' is mean! In the orchard green
It's a crazy thing, this song that I sing, here in the orchard green.

4. Da da da da doo za za za za zoo
Da da da da doo za za za za zoo
The sun is shining in the sky, its cool just to sit and watch the clouds float by,
It's summer time an' the livin' is mean! Here in the orchard green.
Oh, what lazy fun, in the summer sun, here in the orchard green
Oh what a tranquil scene, here in the orchard green.
