

Attainment and Progress

‘Life without Levels’

# School Attainment Measures

By the end of the year:

- If a child has achieved between 60% - 80% of the objectives covered, then this is considered 'within the range of expected attainment'.
- If a child has achieved between 25% - 60% of the objectives covered, then this is considered 'towards the range of expected attainment'.
- Less than 25% is 'below the range of expected attainment'.
- If a child has achieved between 80% - 100% of the objectives covered. then this is considered 'beyond the range of expected attainment'.

# School Progress Measures

- Progress is measured in 'steps': 3 steps per year; 1 step per term.
- Tracking pupil progress will be an **evaluation**, per term, of how each child is progressing towards the **end of year range of attainment**.
- If at the end of the year a child is working '**within the range of expected attainment**' then the expectation will be that, **at least**, they will always be within this range at the end of each year.
- If a child is working '**beyond the range of expected attainment**' then this will be the expected range at the end of each year and the child may go on to further '**enrichment**' within the year's programme of study. (In exceptional cases a child **may** access the next year's programme of study.)

# School Progress Measures

- If at the end of the year a child is working **‘towards the range of expected attainment’** then, although year on year, this range maybe the child’s academic profile the aim of the school will be to move them to **‘within the range of expected attainment’**
- Below 25% would be Special Needs Provision

# School Tracking - Pupil Progress

Tracking pupil progress will be an **evaluation**, per term (**each step**), of how each child is progressing towards the **end of year range of attainment**.

‘AS A PRINCIPLE’

**Within the range of expected attainment 60% - 80%**  
Will be the school’s ‘ambitious’ aim, as a minimum, for all pupils each year.

So.....

End of:

Term 1(**step 1**)..... Approximately 25% of objectives secured (**expected progress**)

Term 2(**step 2**)..... Approximately 50% of objectives secured (**expected progress**)

Term 3(**step 3**)..... Approximately 75% of objectives secured (**expected progress**)

# Reporting to Parents

Comments related to **knowledge** and **skill** development:

Working **within** the range

Working **beyond** the range

Working **towards** the range.....

Good progress / some progress..... Gaps in knowledge....what needs to be worked on next...
