

## HISTORY

In History it is our aim that children gain an excellent knowledge and understanding of people, events, and contexts from a range of historical periods and of historical concepts and processes and therefore gain a better understanding of our multicultural society through studying links between local, British, European and world history.

We aim for children to gain the ability to think critically about history and communicate ideas confidently. We hope children leave Crabtree with a passion for history and an enthusiastic engagement in learning, which develops their sense of curiosity about the past and their understanding of how and why people interpret the past in different ways.

We encourage children to understand the incredible significance that some individuals have had in the past and what part past societies have contributed to our culture today.
